Food Chains – Sea Turtles

All life in the ocean is connected, dependant on each other and together form a healthy ecosystem. Use the images below to create a sea turtle food chain and see how all these species are connected. Identify which are producers, predators, prey, decomposers, carnivores, or herbivores.

		
DOLPHIN	SEA TURTLE	JELLYFISH
		
TIGER SHARK	SHRIMP	CRAB
		
FISH	HATCHLING	KRILL
		
OCTOPUS	GIANT KELP	SEA GRASS
